Hole Diameter:

0.166 inches

Outside Diameter:

0.625 inches

Overall Height:

0.094 inches

Material Thickness:

0.032 inches

Heat Treatment:

T-36 solution heat treated, cold worked by reduction of 6 percent

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-355, t4 federal specification single material response

Surface Treatment:

Anodize

Style Designator:

Finishing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
