Hole Diameter:

1.797 inches

Shoulder Diameter:

Between 2.247 inches and 2.249 inches

Outside Diameter:

Between 2.312 inches and 2.328 inches

Shoulder Height:

0.250 inches

Material Thickness:

0.125 inches

Material:

Copper alloy

Material Specification:

Sae 62 assn standard single material response

Style Designator:

Shouldered

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
