Hole Diameter:

Between 0.406 inches and 0.411 inches

Outside Diameter:

Between 0.980 inches and 0.990 inches

Material Thickness:

Between 0.248 inches and 0.250 inches

Special Features:

Outer periphery chamfered 0.078 in. By 45 degrees on both sides

Material:

Steel comp 1010

Material Specification:

Qq-s-633 federal specification single material response

Style Designator:

Slotted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
