Hole Diameter:

Between 0.635 inches and 0.645 inches

Radius:

0.750 inches

Outside Diameter:

Between 0.870 inches and 0.875 inches

Material Thickness:

Between 0.150 inches and 0.160 inches

Surface Finish:

32.0 microinches counterbore face

Material:

Steel comp 416

Material Specification:

Astm a582, cond a assn standard single material response

Style Designator:

Concave

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A022b0
