Hole Diameter:

Between 0.468 inches and 0.473 inches

Outside Diameter:

Between 0.755 inches and 0.760 inches

Material Thickness:

Between 0.223 inches and 0.227 inches

Heat Treatment:

As fabricated

Material:

Steel comp 8740

Material Specification:

Ams 6322 assn standard single material response

Surface Treatment:

Cadmium

Style Designator:

Convex

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A022b0
