**Hole Diameter:**

Between 0.220 inches and 0.225 inches

**Outside Diameter:**

0.375 inches

**Overall Height:**

0.069 inches

**Material Thickness:**

0.005 inches

**Min. Tensile Strength (psi):**

185000 pounds per square inch

**Heat Treatment:**

Hot rolled or cold drawn 1/2 hard condition

**Material:**

Beryllium

**Material Specification:**

Qq-c-533 half hard federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A022b0
