Spring Tension Washer - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5310-00-905-6440

#### Hole Diameter:

Between 0.220 inches and 0.225 inches

# **Outside Diameter:**

0.375 inches

# **Overall Height:**

0.069 inches

## Material Thickness:

0.005 inches

#### Min. Tensile Strength (psi):

185000 pounds per square inch

#### Heat Treatment:

Hot rolled or cold drawn 1/2 hard condition

#### Material:

Beryllium

## Material Specification:

Qq-c-533 half hard federal specification single material response

# Shelf Life:

N/a

## Unit Of Measure:

---

## Demilitarization:

No

# Fiig:

A022b0
