Hole Diameter:

Between 0.281 inches and 0.307 inches

Outside Diameter:

Between 1.180 inches and 1.220 inches

Recess Diameter:

Between 0.470 inches and 0.510 inches

Material Thickness:

0.090 inches

Recess Angle:

100.0 degrees

Heat Treatment:

T-3 solution heat treated, cold worked

Material:

Steel comp 303

Material Specification:

Qq-s-764 federal specification single material response

Style Designator:

Recessed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
