Hole Diameter:

0.855 inches

Shoulder Diameter:

Between 1.260 inches and 1.270 inches

Outside Diameter:

1.475 inches

Shoulder Height:

Between 0.119 inches and 0.125 inches

Material Thickness:

Between 0.146 inches and 0.152 inches

Special Features:

Manufacturer name - washer, shoulder, retainer block lift

Material:

Steel

Material Specification:

Vs1-1-18, fscm 00170 mfr ref single material response

Style Designator:

Shouldered

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
