Cross Sectional Shape:

Rectangular

Edge Shape:

Round

Center Hole Shape:

Hexagon

Thickness:

Between 0.177 inches and 0.178 inches

Overall Diameter:

Between 1.990 inches and 2.000 inches

Hole Width Across Flats:

Between 1.007 inches and 1.020 inches

Special Features:

0.020 in. W 0.020 in. Deep groove

Color:

Black

Material:

Steel comp 304

Material Specification:

Qq-s-766 cond a federal specification single material response

Surface Treatment:

Oxide film

Surface Treatment Specification:

Mil-c-13924 cl 4 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0

Mil-std (military Standard):

Mil-c-13924 spec.
