Hole Diameter:

0.257 inches

Outside Diameter:

0.875 inches

Overall Height:

0.100 inches

Material Thickness:

Between 0.037 inches and 0.043 inches

Special Features:

Heat treat 1-hour at 700 degree f and quench in water

Material:

Copper alloy 170 and copper alloy 172

Material Specification:

Qq-c-533 federal specification all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
