Hole Diameter:

0.344 inches

Outside Diameter:

1.000 inches

Recess Diameter:

0.650 inches

Material Thickness:

0.250 inches

Recess Angle:

Between 80.0 degrees and 82.0 degrees

Material:

Aluminum alloy

Material Specification:

Qq-a-200/4 federal specification all material responses or qq-a-200/5 federal specification all material responses or qq-a-250/6 federal specification all material responses or qq-a-250/7 federal specification all material responses

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-c-5541, class 1a military specification single treatment response

Style Designator:

15 recessed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0

Mil-std (military Standard):

Mil-c-5541 spec.
