Hole Diameter:

Between 0.256 inches and 0.267 inches

Outside Diameter:

Between 0.460 inches and 0.478 inches

Material Thickness:

Between 0.023 inches and 0.028 inches

Material:

Copper alloy

Material Specification:

Qq-b-750 comp a, hard federal specification single material response

Surface Treatment:

Cadmium and chromate

Surface Treatment Specification:

Qq-p-416, class 2 type 2 federal specification single treatment response

Style Designator:

Flat internal teeth

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A022b0
