Hole Diameter:

Between 0.377 inches and 0.391 inches

Outside Diameter:

Between 0.493 inches and 0.507 inches

Material Thickness:

0.022 inches

Material:

Copper alloy

Material Specification:

Qq-b-750, comp a federal specification single material response

Surface Treatment:

Nickel

Surface Treatment Specification:

Qq-n-290 cl 2 type 6 federal specification single treatment response

Style Designator:

Flat internal teeth

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
