**Thread Series:**

Unc

**Thready Qty Per Inch (tpi):**

6

**Thread Size:**

1.375 inches

**Criticality Code Justification:**

Zzzw

**Bearing Surface Type:**

Washer faced

**Material:**

Steel

**Material Specification:**

66 federal standard single material response

**Specification Or Standard:**

2h grade

**Departure From Cited Document:**

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A021a0
