Thread Series:

Unc

Thready Qty Per Inch (tpi):

6

Thread Size:

1.375 inches

Criticality Code Justification:

Zzzw

Bearing Surface Type:

Washer faced

Material:

Steel

Material Specification:

66 federal standard single material response

Specification Or Standard:

2h grade

Departure From Cited Document:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A021a0
