Hole Diameter:

1.060 inches

Material Thickness:

0.380 inches

Top Recess Diameter:

1.120 inches

Bottom Recess Angle:

90.0 degrees

Top Recess Angle:

90.0 degrees

Bottom Recess Diameter:

1.120 inches

Special Features:

Hex peripheral shape, 3.875 in. Width across flats

Material:

Nickel alloy 400

Material Specification:

Qq-n-281, cl a, form 1 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A022b0
