Hole Diameter:

Between 0.478 inches and 0.481 inches

Outside Diameter:

Between 0.625 inches and 0.635 inches

Internal Prebent Key Length:

Between 0.053 inches and 0.058 inches

Internal Prebent Key Width:

0.067 inches

Material Thickness:

0.025 inches

Material:

Copper alloy

Material Specification:

Qq-b-611, comp c, 1/2 hard federal specification single material response

Surface Treatment:

Nickel

Style Designator:

Key

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A022b0
