**Hole Diameter:**

Between 0.478 inches and 0.481 inches

**Outside Diameter:**

Between 0.625 inches and 0.635 inches

**Internal Prebent Key Length:**

Between 0.053 inches and 0.058 inches

**Internal Prebent Key Width:**

0.067 inches

**Material Thickness:**

0.025 inches

**Material:**

Copper alloy

**Material Specification:**

Qq-b-611, comp c, 1/2 hard federal specification single material response

**Surface Treatment:**

Nickel

**Style Designator:**

Key

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A022b0
