Hole Diameter:

2.200 inches

Outside Diameter:

Between 2.7530 inches and 2.7535 inches

Overall Height:

0.680 inches

Recess Diameter:

2.400 inches

Recess Depth:

0.530 inches

Hardness Rating:

Between 26.0 rockwell c and 32.0 rockwell c

Surface Finish:

63.0 microinches bottom

Special Features:

Outside left corner chamfered, 0.040 in. Lg, 45.0 degrees angle, recess chamfered, 0.050 in. Lg, 45.0 degrees angle

Color:

Black

Material:

Steel comp 4140

Material Specification:

Ams 6382 assn standard single material response

Surface Treatment:

Oxide

Surface Treatment Specification:

Ams 2485 assn standard single treatment response

Style Designator:

Recessed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
