**Hole Diameter:**

0.316 inches

**Edge Shape:**

Round

**Center Hole Shape:**

1 round

**Thickness:**

0.094 inches

**Overall Diameter:**

1.500 inches

**Special Features:**

One bearing surface serrated; outside corner of serrated bearing surface rounded 0.062 in. Radius

**Material:**

Copper alloy 462 or copper alloy 464 or copper alloy 482 or copper alloy 485

**Material Specification:**

Qq-b-637 federal specification all material responses

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A022b0
