Criticality Code Justification:

Zzzy

General Description:

Threads 1.000-8 unc 2b, hight 0.870 in. Nom., material bronze, astm b-139, temp h04 hard min tensile strength 70, 000 psi

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
