Hole Diameter:

1.125 inches

Outside Diameter:

1.600 inches

External Prebent Key Length:

0.500 inches

Overall Distance Including Keys:

2.100 inches

Material Thickness:

0.090 inches

Wire Hole Diameter:

Between 0.125 inches and 0.130 inches

External Prebent Key Angle:

Between 28.0 degrees and 32.0 degrees

Special Features:

External prebent key

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11, t6 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
