Hole Diameter:

0.530 inches

Outside Diameter:

0.790 inches

Recess Diameter:

0.560 inches

Material Thickness:

0.120 inches

Recess Angle:

45.0 radians

Material:

Steel comp 630

Material Specification:

Ams5643/2303 assn standard single material response

Surface Treatment:

Passivate

Surface Treatment Specification:

Qq-p-35, type ii federal specification single treatment response

Style Designator:

15 recessed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
