Hole Diameter:

0.374 inches

Outside Diameter:

0.758 inches

Material Thickness:

0.200 inches

Min. Tensile Strength (psi):

150000 pounds per square inch

Special Features:

Chamfer right outside corner 99 degrees min 101 degrees max

Material:

Steel comp xm-12

Material Specification:

Ams 5659 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
