**Hole Diameter:**

0.144 inches

**Shoulder Diameter:**

0.187 inches

**Outside Diameter:**

0.313 inches

**Shoulder Height:**

Between 0.025 inches and 0.030 inches

**Material Thickness:**

0.047 inches

**End Application:**

Guidance and control group

**Special Features:**

Tensile yield strength 8000 psi min, dielectric strength 500 volts min, useable temperature range m 55 to p 135 degrees c

**Material:**

Plastic polycarbonate

**Material Specification:**

L-p-393 federal specification single material response

**Style Designator:**

Shouldered

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A022b0
