Hole Diameter:

Between 2.115 inches and 2.135 inches

Outside Diameter:

Between 2.600 inches and 2.660 inches

Material Thickness:

Between 0.115 inches and 0.135 inches

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11 t6 federal specification single material response

Style Designator:

Concave

Specification Data:

76301-74a551866-2001 professional/industrial association specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
