**Hole Diameter:**

0.164 inches

**Outside Diameter:**

1.062 inches

**Material Thickness:**

0.183 inches

**Recess Angle:**

Between 98.0 degrees and 102.0 degrees

**Special Features:**

30.0 degrees chamfer, recess side, leaving 0.500 in. Od flat bearing surface

**Material:**

Aluminum alloy 6061

**Material Specification:**

Qq-a-225/8, t651 federal specification single material response

**Surface Treatment:**

Anodize

**Surface Treatment Specification:**

Mil-a-8625, type 2, class 2 military specification single treatment response

**Style Designator:**

15 recessed

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A022b0

**Mil-std (military Standard):**

Mil-a-8625 spec.
