Hole Diameter:

0.164 inches

Outside Diameter:

0.750 inches

Material Thickness:

0.147 inches

Recess Angle:

Between 98.0 degrees and 102.0 degrees

Special Features:

45.0 degrees chamfer, recess side, leaving 0.500 in. Od flat bearing surface

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-225/8, t651 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 2, class 2 military specification single treatment response

Style Designator:

15 recessed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0

Mil-std (military Standard):

Mil-a-8625 spec.
