Thread Direction:

Right-hand

End Application:

Mrap - common nsn - used on 3 mrap variants and 1 other weapon system

Thread Series:

M

Thread Size:

8.0 millimeters

Countersink Angle:

120.0 degrees both ends

Bearing Surface Type:

Chamfered

Thread Tolerance Class:

6h internal

Material:

Steel nut

Material Specification:

Din267, part18 national specification single material response nut

Surface Treatment:

Zinc nut

Surface Treatment Specification:

Din267, part9 national specification single treatment response nut

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A021a0
