Material Thickness:

0.040 inches

Nut Width:

0.600 inches

Aperture Quantity:

4

Special Features:

One coat of zinc chromate primer to all surfaces and edges; apply 2 coats of lusterless black enamel color no. 37038 per fed-sts-595 to all surfaces and edges indicated.

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A021a0
