Hole Diameter:

Between 1.545 inches and 2.145 inches

Outside Diameter:

2.500 inches

Material Thickness:

0.062 inches

End Application:

Sh-2g

Material:

Steel comp 302

Material Specification:

Ams5516 assn standard single material response

Style Designator:

Flat external teeth

Supplementary Features:

Controlling agency name keylock-washer, nut input free wheeling clutch

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A022b0
