Hole Diameter:

Between 0.252 inches and 0.260 inches

Outside Diameter:

0.363 inches

Material Thickness:

0.078 inches

End Application:

Sub atmosphere control

Material:

Stainless steel

Material Specification:

Fed-std-66 federal standard single material response

Style Designator:

Split helical-right hand

Specification Data:

81348-ff-w-84 government specification

Specification Or Standard:

C class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
