Spring Tension Washer - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5310-01-476-4942

Hole Diameter:
Between 2.216 inches and 2.226 inches
Outside Diameter:
4.000 inches
Material Thickness:
0.062 inches
End Application:
Sub atmosphere control
Surface Finish:
63.0 microinches top
Special Features:
Two internal keys 180 degrees apart, 0.125 in. Nom. Thk and 0.242 in. Nom. Deep from inside dia.
Material:
Steel comp 410
Material Specification:
Qq-s-763, class 410, cond t federal specification single material response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A022b0
