Hole Diameter:

Between 2.216 inches and 2.226 inches

Outside Diameter:

4.000 inches

Material Thickness:

0.062 inches

End Application:

Sub atmosphere control

Surface Finish:

63.0 microinches top

Special Features:

Two internal keys 180 degrees apart, 0.125 in. Nom. Thk and 0.242 in. Nom. Deep from inside dia.

Material:

Steel comp 410

Material Specification:

Qq-s-763, class 410, cond t federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
