**Hole Diameter:**

Between 2.216 inches and 2.226 inches

**Outside Diameter:**

4.000 inches

**Material Thickness:**

0.062 inches

**End Application:**

Sub atmosphere control

**Surface Finish:**

63.0 microinches top

**Special Features:**

Two internal keys 180 degrees apart, 0.125 in. Nom. Thk and 0.242 in. Nom. Deep from inside dia.

**Material:**

Steel comp 410

**Material Specification:**

Qq-s-763, class 410, cond t federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A022b0
