Thread Pitch Diameters:

+8.4/+9.0 millimeters

Thread Direction:

Right-hand

Locking Feature:

Prevailing torque all metal design

Nut Style:

Hexagon

Nut Height:

Between 8.94 millimeters and 10.00 millimeters

End Application:

1055-01-450-4243; launcher, rocket, armored vehicle mounted; multiple launch rocket system

Width Across Flats:

Between 15.73 millimeters and 16.00 millimeters

Thread Series:

Iso m

Thread Size:

10.0 millimeters

Thread Pitch In Millimeters:

1.50

Bearing Surface Type:

Chamfered

Thread Tolerance Class:

6h internal

Material:

Steel

Surface Treatment:

Cadmium and chromate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A021a0
