**Hole Diameter:**

Between 0.440 inches and 0.450 inches

**Outside Diameter:**

Between 1.400 inches and 1.420 inches

**Material Thickness:**

Between 0.056 inches and 0.058 inches

**End Application:**

2320-01-432-4847

**Hardness Rating:**

Between 38.0 rockwell c and 42.0 rockwell c

**Special Features:**

Parts must be free from hydrogen embrittlement

**Material:**

Steel comp 1095

**Material Specification:**

Sae1095 assn standard single material response

**Surface Treatment:**

Zinc

**Surface Treatment Specification:**

Freightlinerspec49-00005-201 mfr ref single treatment response

**Style Designator:**

Split helical-left hand

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A022b0
