Hole Diameter:

Between 0.440 inches and 0.450 inches

Outside Diameter:

Between 1.400 inches and 1.420 inches

Material Thickness:

Between 0.056 inches and 0.058 inches

End Application:

2320-01-432-4847

Hardness Rating:

Between 38.0 rockwell c and 42.0 rockwell c

Special Features:

Parts must be free from hydrogen embrittlement

Material:

Steel comp 1095

Material Specification:

Sae1095 assn standard single material response

Surface Treatment:

Zinc

Surface Treatment Specification:

Freightlinerspec49-00005-201 mfr ref single treatment response

Style Designator:

Split helical-left hand

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A022b0
