Hole Diameter:

0.423 inches

Radius:

Between 0.313 inches and 0.318 inches

Outside Diameter:

Between 0.580 inches and 0.590 inches

Material Thickness:

Between 0.135 inches and 0.145 inches

End Application:

C-130j hercules aircraft

Product Name:

Washer, self aligning, concave

Special Features:

Used with p/n kfn619n10 nut, self aligning

Material:

Steel comp 630

Material Specification:

Ams5643, cond h-1025 assn standard single material response

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416, type 2, class3 federal specification single treatment response

Style Designator:

Concave

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
