End Application:

Fixed wing aircraft, boeing model757

Special Features:

Subassembly is lock release instl-mlg door actr; refer to boeing i.P.C.Boe2426 32-35-03-01 no. 210

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/4 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 1 military specification single treatment response

Specification Data:

81205-cacw10bn manufacturers standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0

Mil-std (military Standard):

Mil-a-8625 spec.
