**Hole Diameter:**

Between 0.312 inches and 0.322 inches

**Outside Diameter:**

Between 0.552 inches and 0.572 inches

**Material Thickness:**

Between 0.120 inches and 0.130 inches

**Material:**

Iron alloy 660

**Material Specification:**

Ams5525 assn standard single material response or ams5731 assn standard single material response or ams5732 assn standard single material response or ams5737 assn standard single material response or ams5881 assn standard single material response

**Surface Treatment:**

Cadmium

**Surface Treatment Specification:**

Qq-p-416, type ii, class 2 federal specification single treatment response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A022b0
