Hole Diameter:
Between 0.312 inches and 0.322 inches
Outside Diameter:
Between 0.552 inches and 0.572 inches
Material Thickness:
Between 0.120 inches and 0.130 inches
Material:
Iron alloy 660
Material Specification:
Ams5525 assn standard single material response or ams5731 assn standard single material response or ams5732 assn standard single
material response or ams5737 assn standard single material response or ams5881 assn standard single material response
Surface Treatment:
Cadmium
Surface Treatment Specification:
Qq-p-416, type ii, class 2 federal specification single treatment response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A022b0
