Hole Diameter:

Between 0.312 inches and 0.322 inches

Outside Diameter:

Between 0.552 inches and 0.572 inches

Material Thickness:

Between 0.120 inches and 0.130 inches

Material:

Iron alloy 660

Material Specification:

Ams5525 assn standard single material response or ams5731 assn standard single material response or ams5732 assn standard single material response or ams5737 assn standard single material response or ams5881 assn standard single material response

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416, type ii, class 2 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
