End Application:

Valve b 0.37 ips 4500 psi sktwld brz

Product Name:

Thrust washer

Special Features:

Material is delrin (polyoxymethylene) it is a rugged polymer that serves as an excellent choice for long-term mechanical stability though it cannot tolerate to be in the presence of acidic or basic solutions for long periods of time, as the polymer will degrade. It is best to use neutral pH aqueous solutions or organic solutions for best performance.

Material:

Plastic

Material Specification:

Af-de588 brown assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A022b0
