Hole Diameter:

Between 0.570 inches and 0.582 inches

Outside Diameter:

0.971 inches

Material Thickness:

0.141 inches

Product Name:

Lock washer-regular helical spring

Special Features:

Material: carbon steel per 36 axs1; finish: zinc chromate; width: 0.188 in.

Material:

Steel

Surface Treatment:

Chromate zinc

Style Designator:

Spring tension

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A022b0
