Thread Direction:

Right-hand

Locking Feature:

Prevailing torque all metal design

Nut Style:

Hexagon

Nut Height:

0.328 inches

End Application:

NAVY-MR-APL-IGHT

Width Across Flats:

0.562 inches

Tempurature Rating:

450.0 degrees fahrenheit

Thread Series:

Unc

Thready Qty Per Inch (tpi):

16

Hardness Rating:

Between 26.0 rockwell c and 34.0 rockwell c

Thread Size:

0.375 inches

Bearing Surface Type:

Chamfered

Product Name:

Tifco (class c) lock nut

Special Features:

Tensile strength 150, 000 p.S.I.

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A021a0
