End Application:

5980-01-558-1080; electro-optics maintenance shop set

Product Name:

Sealing blind rivet domed

Special Features:

Material thickness range .126 to .250; hole size .257 to .261; drill size f; length .485 inch; head diameter (a) .525 inch; head height (b) 0.99 inch; shear strength 900 lbs

Material:

Aluminum alloy and steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A021a0
