Thread Direction:

Right-hand

Locking Feature:

Prevailing torque all nonmetallic design

Nut Style:

Hexagon

Nut Height:

Between 0.438 inches and 0.468 inches

Width Across Flats:

Between 0.551 inches and 0.564 inches

Thread Series:

Unc

Thread Size:

0.375 inches

Product Name:

Nut, self lock, hex, non-metallic, lock feature

Special Features:

Remove burrs & slivers

Material:

Steel comp 316 nut

Material Specification:

Asme y14.5m national std/spec 1st material response and astm f594 national std/spec 2nd material response

Specification Or Standard:

2b grade

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A021a0
