Hole Diameter:

0.138 inches

Outside Diameter:

0.375 inches

Overall Height:

0.094 inches

End Application:

5410-01-592-9463

Product Name:

Washer, sealing

Special Features:

Neoprene seal has temp range of -80deg f to 300deg f; seal is chemically resistant to water, gasoline, petroleum oils, salt sprays, alkali, some acids, organic and aromatic solvents, detergents, ozone, hydrocarbons, oxygenated and chlorinated solvents

Material:

Rubber neoprene sealing element

Style Designator:

Concave

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
